	<b>Completed:</b>
Clinical Engagement taken place	Not Applicable
Patient and Public Involvement	Not Applicable
Patient Data Impact Assessment	Not Applicable
Equality Analysis / Human Rights Assessment completed	Not Applicable

## **Executive Summary**

This paper provides a summary of the activities, items of discussion and decisions made by the Primary Care Performance and Quality subcommittee during the months of March, April and May.

### **MARCH**

#### **Healey Surgery Primary Care Quality Programme Action Plan**

Following a practice visit as part of the Primary Care Quality Monitoring Programme, the practice had submitted its action plan to address the indicators selected by the Primary Care clinical lead. The subcommittee discussed and subsequently approved the action plan submitted by the practice.

#### **Primary Care Academy Measures**

The paper that was taken to the February PCCC for approval was shared with the members of the subcommittee for information.

#### **CRP Testing Specification**

A paper was shared which provided an update in relation to the CCG's antibiotic prescribing position, CRP expenditure and practice usage along with a request for additional funding to support this work. The members agreed that the paper would be taken to the next Primary Care Finance, Contracts & Estates Subcommittee for approval of the financial element with additional information in relation to the Quality Premium achievements, the plans to implement robust data collections from practices for next year and highlighting the cost savings once the CRP machines are owned.

#### **HealthWatch Rochdale Update**

It was reported that a key priorities public consultation is currently taking place to identify which areas of health and social care services the organisation should focus on over the next year.

### **APRIL**

#### **The sub-committee Terms of Reference (ToRs)**

The ToRs were reviewed with minor changes highlighted such as the requirement to include representatives from Integrated Commissioning team – both elective and primary care. It was agreed that these changes would be made and the updates document would be brought back to the next meeting for final ratification.

### **Rochdale Road Medical Centre: Quality Programme Action Plan**

Following a practice visit as part of the Primary Care Quality Monitoring Programme, the practice had submitted its action plan to address the indicators selected by the Primary Care clinical lead. The subcommittee discussed and subsequently approved the action plan. It was also confirmed that following a recent refresh of the Quality Dashboard the practice had moved from red to amber overall and it was noted they are now green for the prescribing indicators.

### **Out of Hours KPI Report**

The report was provided for review and the subcommittee were asked for any questions or comments they felt should be put forward at the next contract meeting with the provider. No comments or questions were received.

### **Rochdale Health Alliance (RHA) Contract Management**

A verbal update was provided and it was noted that work was taking place for the submission to the CCG on 6<sup>th</sup> April in relation to Core+ 1 outcomes and work is taking place around Core+2 governance, contract arrangements and signing off funding flows. It was highlighted that minor surgery activity has increased in quarter 4 but is within the expected budget. It was also explained that the homelessness project had encountered issues with its base with some activities suspended in order to obtain CQC regulations. It was confirmed the start date remains April 2018 and everything is in place to achieve this.

### **Safeguarding and Quality Report**

The report was summarised. A discussion took place regarding a Serious Case Review (SCR)/Serious Adult Review (SAR) learning event is being held on 13<sup>th</sup> April. It was felt that a full day session can be prohibitive for GPs and it was asked that a summary is provided for those who were unable to attend. The importance of the sharing of GP case notes in relation to LeDeR reviews was also reiterated.

### **Care Quality Commission (CQC) Update**

It was highlighted that practices are now green across the Borough with the exception of the APMS sites and Heywood Health which are yet to be inspected under their new contract. Members acknowledged the practices efforts in this area.

## **MAY**

### **The Sub-committee Terms of Reference (ToRs)**

The subcommittee approved the ToRs

### ***Items for discussion/information:***

#### **Minor Ailments Scheme Evaluation 2017/18**

A report was provided showing that the scheme is working well with cost savings and patient satisfaction highlighted. It was noted that there is further work being undertaken to engage some pharmacies in Middleton to ensure this service can be delivered equitably across the patch.

#### **17/18 Quality Standards**

An update provided was provided regarding the year end performance which highlighted that a number of practices had failed to meet the original requirements. It was noted that the CCG and LMC were working together to develop options for PCCC approval in relation to the management of this.

#### **HealthWatch Rochdale Update**

A report was shared showing the most recent feedback from patients. It was also explained that HealthWatch Rochdale during the public consultation process they had held to determine their key priority areas for the coming year, General Practice was not selected as a priority; which means that no further Enter and View visits will be routinely scheduled.
