	Completed:
Clinical Engagement taken place	Not Applicable
Patient and Public Involvement	Not Applicable
Patient Data Impact Assessment	Not Applicable
Equality Analysis / Human Rights Assessment completed	Not Applicable

Executive Summary

We're excited to announce that RADDAG has successfully applied to be a member of the Disabled Peoples Advisory Panel for the Mayor of Greater Manchester; the Panel aims to strengthen the voice of disabled people and their organisations in shaping, challenging and influencing strategic policy issues that are important to disabled people across Greater Manchester. The panel will be made up of voluntary sector organisations of and for disabled people from across all 10 GM boroughs and is a great opportunity to influence decision making and also to share good practice across areas.

RADDAG continues to work closely with the Community Cohesion Team at Rochdale Borough Council, being based within the team 2 days per week. This sees our Project Manager working on projects which promote cohesion and equality, such as raising awareness of Hate Crime reporting, being involved in planning events such as Black History Month and 'Rochdale in Rainbows' which aims to coordinate existing LGBT+ activity and planning new events with the community. The Rochdale in Rainbows steering group is made up of organisations from across the borough including statutory and voluntary sector groups. Plans are being made to hold a week of LGBT+ focused activities in November and updates will be provided once specifics have been agreed. As 22nd November – 22nd December is Disability History Month we are planning to a range of activities in collaboration with a number of equality colleagues. This year's theme is 'Leadership, Resistance and Culture', an initial idea is to hold a conference during the month, we will ensure that PPEC members are kept updated as this idea develops and have the opportunity to be involved where appropriate.

Further to this we have continued to work with the CCG in ensuring that people with a protected characteristic are involved in engagement activity and have also been involved in the work that Samina is leading on around integrating equality policies and practices across RBC and the CCG.

Although the Equality, Diversity and Cohesion Network haven't met since the last PPEC, there is still an ambition to develop the network, which is currently a strategic theme of the Voluntary and Community Sector Alliance Board. The desire is for the network to bring together stakeholders who work with communities of identity across the Borough of Rochdale. The network will provide a platform for organisations to share good practice and make the most effective use of resources. The purpose of the network will be to coordinate and develop opportunities for organisations to collaborate and to improve partnership working within the sector and between the sector and other

stakeholders, such as the Local Authority, HMR CCG and external funders. The network will provide a structure for consultation and involvement opportunities between public bodies and the sector and aims to ensure that organisations have a collective voice in influencing decisions that affect communities of identity within the Borough. Over the next few months we'll be working closely with Khadija at KYP to establish this network and ensure that Equality, Diversity and Cohesion are a priority within all areas of work across the borough.

Finally we have been asked by Diabetes UK to disseminate information in relation to a piece of work that they will be delivering in the Borough in the next few months. They are looking to recruit a task force of people to bring together their ideas, passion and creativity to make a difference for people living with or affected by diabetes in Heywood, Middleton and Rochdale. They would like volunteers who can help to raise money, campaign, petition or tweet their way to a healthier community, with the ultimate aim of creating a world where diabetes can do no harm. For further information Emma Parke is the contact at Diabetes UK and she can be contacted on emma.parke@diabetes.org.uk or 01925 644571. This work will culminate in a multi-agency drop in day at The Branches Christian Fellowship, Smallbridge, on 3rd September, which will take place for the 2nd year. There will be information stalls from various support groups and services including the opportunity for people to take part in the Diabetes UK's 'Know your risk', where people find out their 'risk of developing Type 2 diabetes and can receive advice in how to reduce this risk.
