Equality Analysis / Human Rights Assessment completed	Not Applicable

Executive Summary
Please see attached report.

Update for Heywood, Middleton & Rochdale Circle

The last quarter has seen HMR Circle continue to be very busy, in particular working with Rochdale Council and other third sector groups to organise two large scale consultation events aimed at the Borough becoming Age-Friendly as defined by the World Health Organisation.

The first event was at Rochdale Town Hall with 134 in attendance. The 2nd event is at Middleton Arena on the 28th of June.

The results of these consultation events will be collated by Public Health to form the basis for building an Age-Friendly Rochdale Borough.

Away from these events we continue to be busy. Our statistics for the 1st March-1st June are: -

- 126 different social events organised
- 1637 total combined attendees (Av.13/event)
- 267 different people attended
- 118 Practical Jobs completed
- 46 People used the practical service in that period
- 259.85 Hours of practical support delivered
- 4342 Transport Requests received
- 296 people used the VDS during that period
- 10 Hours 1-2-1 Befriending
- 118 Hours Group befriending
- Over 600 older people have accessed our services during this period

We have also now have two groups aimed at BAME residents.

Our BAME group for men with low mood and anxiety meets weekly at Falinge Mews

We also have a DEEP group, which is a fortnightly day service for members of the BAME community with low level dementia as well as respite for their carers. This takes place at Khubsurat House.

In addition, we now run the HMR Circle Lunch Club-Club at St Ann's Belfield after taking the group on following the closure of Meadowfields Community.

We have been fortunate enough to secure some monies from the Connecting You fund which has allowed us to take on a new part time member of staff.

Claire (our new staff member) is a former volunteer with HMR Circle and through her good work has shown the ability and team spirit needed to fit in the Circle style of working. Claire will be leading on a new project called Magnificent 7 which is based in Kirkholt and Norden.

We have also strengthened our connection with RBH on another brand-new innovation which will see us working on a pilot around the Independent Living Schemes.

On our wider work as mentioned previously we are working with new partners to launch new versions of Circle.

Haringey Circle, Abingdon Circle and Moston/New Moston Circle will be going live in the next few weeks.

Thanks to our work with the University of Manchester we were invited to present at a conference in Brussels to an International audience around our successful use of Technology as a Social Enterprise. We received excellent feedback after the event, and it has strengthened our network of contacts.

Our links with both the University of Manchester and the Manchester Metropolitan University are growing with research programmes with both institutions booked in for this upcoming academic year

The links to South Korea continue to grow and we have three separate delegations coming over in June and July to look at our Model and how it could be transferred to work in South Korea.

Mark Wynn
Director
HMR Circle
